

CARE INSPECTION 2022

Seamab was subject to a Care Inspection in March of this year. This was a positive experience for everyone involved and the inspectors noted the relaxed nature of the staff and children, an indicator of how well we have coped over the past two years of the pandemic. The grades achieved are:

How well do we support children and young people's wellbeing?	5 - Very Good
How good is our leadership?	5 - Very Good
How good is our staff team?	5 - Very Good
How good is our setting?	6 - Excellent
How well is our care planned?	5 - Very Good

These results are a credit to the hard work shown by our teams over the past two years to achieve a sector-leading experience for the children and young people we support. In the report, the inspectors have commented that:

"The ethos and value base within Seamab focussed on relationships and love for the children they care for."

"All of the children led active and fulfilling lives and were having really good fun."

"Each child was treated as a respected individual by staff who were fully aware of their needs, plans and goals."

Congratulations to our care team staff on achieving such an outstanding outcome.
